

Meta Ray-Ban Smart Glasses

Enabling Calling and Messaging Features (Android)

This document guides you through how to enable calling and messaging features in the Meta AI app. This will allow you to make and receive calls as well as send and receive messages using your Meta Ray-Ban Smart Glasses!

To enable calling and messaging features, follow these steps:

Note: The following instructions have been created using the Meta AI app, version 267.1.0.67.173.

1. Open the Meta AI app.
2. **Activate the Menu button, situated at the top left corner of the screen. Upon doing this, a menu will be displayed.**
3. **From the menu, activate the "Settings" button, situated at the bottom of the menu. Upon doing this, the Settings screen will be displayed.**
4. **Activate the button which is labelled "Wayfarers...". For reference, you will find this directly under the "Devices" heading. Upon doing this, the Devices screen will be displayed.**
5. **In the Devices screen, activate the "Communication" button. For reference, this is situated beneath the "Experiences" heading. Upon doing this, the "Calling, Messaging and Sharing" screen will be displayed.**

- 6. Activate the "Connect" button, associated with the "WhatsApp" option. Upon doing this, the Link With WhatsApp" screen will be displayed.**
- 7. Activate the Next" button. Upon doing this, the "Connect WhatsApp" screen will be displayed. In this screen, you will find information about using WhatsApp with your glasses.**
- 8. Activate the "Connect To Your Glasses" button, situated at the bottom of the screen. Upon doing this, you will return to the WhatsApp screen.**
- 9. Activate the "Back" button, situated at the top left corner of the screen. Upon doing this, you will return to the Calling, Messaging and Sharing screen.**
- 10. Now activate the "Connect" button, associated with the Phone option. Upon doing this, the "Your Phone" screen will be displayed. In this screen you can specify whether or not messages are announced as they arrive and whether or not they are read out.**
- 11. Activate the "Back" button, situated at the top left corner of the screen. Upon doing this, you will return to the Calling, Messaging and Sharing screen.**
- 12. Activate the "Back" button, situated at the top left corner of the screen. Upon doing this, you will return to the Devices screen.**
- 13. Activate the "Back" button, situated at the top left corner of the screen. Upon doing this, you will return to the Settings screen.**
- 14. Finally, activate the "Close" button, situated at the top left corner of the screen.**

Congratulations, you can now make and receive calls, as well as send and receive messages using your Meta Ray-Ban Smart Glasses! Good luck!
